

**CORRIGENDUM No. 5: AMENDMENT IN SECTION 15.10.**  
**50 MW Solar Project at Winder and 100 MW Solar at Bela, Balochistan**

KE had invited bids/proposals from the investors for the development of the subject project through advertisement made on April 2, 2024.

This corrigendum is issued to notify an amendment in Section 15.10. Clause (f) of the subject project RFP document.

The earlier mentioned Section 15.10. Clause (f) stated that:

“Bidders must ensure adequate fencing & surveillance to ensure security of the Complex as per the Site condition/requirement, security systems installation, lighting, security cameras, microwave sensors for security purpose shall also be preferred. Anti-theft module fiber system proposition. Anti-theft module mounting bolts with the use of synthetic resin.”

has now been revised to

***“Bidders must ensure adequate fencing & surveillance to ensure security of the Complex as per the Site condition/requirement, security systems installation, lighting, security cameras, microwave sensors for security purpose shall also be preferred.”***

The Updated Section 15.10. Clause (f) now reads as follows:

**15.10. Safety & Security**

- f) Bidders must ensure adequate fencing & surveillance to ensure security of the Complex as per the Site condition/requirement, security systems installation, lighting, security cameras, microwave sensors for security purpose shall also be preferred.
