CORRIGENDUM No. 6: AMENDMENT IN SECTION 15.10.
50 MW Solar Project at Winder and 100 MW Solar at Bela, Balochistan

KE had invited bids/proposals from the investors for the development of the subject project through advertisement made on April 2, 2024.

This corrigendum is issued to notify an amendment in Section 15.10 of the subject project RFP document.

The earlier mentioned Section 15.10 Clause (c) stated that:

“All lines interconnecting solar arrays shall be underground”,

has now been revised to

“Bidders shall consider the soil testing report and the related topographic details of the site while making the interconnection plan. Over ground cabling may be considered while maintaining the safety measures”

The Updated Section 15.10. Clause (c) now reads as follows:

15.10. Safety & Security

- c) Bidders shall consider the soil testing report and the related topographic details of the site while making the interconnection plan. Over ground cabling may be considered while maintaining the safety measures
