Project Management Unit
SINDH SOLAR ENERGY PROJECT
Energy Department, Government of Sindh

Dated: September 20th, 2024
SAY NO TO CORRUPTION

➔ To,
Mudassir Zuberi,
K-Electric Limited.

Subject: **REQUEST FOR CONFIRMATION ON THE ISSUE OF LAND LEVELING AT DEH HALKANI AND DEH MITHA GHAR SITES**

Reference is made to Letter No. BD/MZ/GOS/2024-0918 dated September 18th, 2024, received from K-Electric Limited (KE) on the subject matter. The Sindh Solar Energy Project (SSEP), Energy Department, Government of Sindh, has provided KE with the requested revised coordinates and feasibility studies for the 120 MW Deh Halkani and 150 MW Deh Mitha Ghar Solar Park sites.

2. The revised feasibility studies have identified a large hill within the site coordinates that may adversely impact the required generation capacity.
3. In view of the above, it has been decided that SSEP will conduct the leveling activities only in portions of both sites where large hills are present. However, please note that the ultimate responsibility for leveling of the entire site, in accordance with PV and tracker systems manufacturer guidelines, will lie with the selected bidder who is successfully awarded the contract.

(Mehfooz Ahmed Qazi)
Project Director
